Dalton Den Haag
2012 - 2018

ABOUT ME

I am a *passionate and driven 3D Animator and MoCap Tech.* Creating visually appealing games through high- quality handkeyed and / or motion captured animations is my main goal. Player experience and coherence is key to me, and alongside the importance of feedback I always try to incorporate my eagerness to learn into my work and keep on improving myself.

EXPERIENCE

Infinity Interactive B.V. (Virtual Reality)

- Set up internal MoCap Studio, inertial, Rokoko hard- and software. Used for client projects as well as in-house R&D.
- 3D Animation: handkeyed and MoCap cleanup, serious games & entertainment.

Centroid Ltd.

- Everything in optical MoCap pipeline, from administration, to tracking and processing data, as well as working with Actors
- Worked on AAA projects with prestigious clients both in film and games industries

Acrylic Painting Commissions - Commissions of requested subjects, main focus animal portraits - Realistic style

EDUCATION

Bachelor's Degree in International Games Architecture and Design

Graduated as 3D Animator in 2022

- Worked on Arid (available on Steam) for an academic year as 3D Animator. It won Best Student Game for the Dutch Game Awards 2021, and was a Rookies Finalist that same year.

VWO Atheneum Cultuur & Maatschappij

CAE Certificate (EN), IB Certificate (EN), VWO Diploma
